Local Digital Declaration

Introduction

This Declaration affirms our collective ambition for local public services in the internet age, and our commitments to realising it. It commits us working on a new scale to:

- design services that best meet the needs of citizens
- challenge the technology market to offer the flexible tools and services we need
- protect citizens' privacy and security
- deliver better value for money

This joint endeavour was initiated by the UK Ministry for Housing, Communities and Local Government (MHCLG), the Government Digital Service (GDS), and a collection of local authorities and sector bodies from across the UK. We invite all local authorities and the organisations we collaborate with to join us by [signing the Declaration](#) and committing to deliver a first action from which we can all benefit.
