Digital policy in MHCLG

Paul Maltby

Chief Digital Officer

**I sit between the digital
and policy worlds**

**Its different being CDO
in one of the big policy
departments**

**Local Digital is a nice
example of digital
policy work**

Local Digital

Laying the foundations for the local public services of the future

The Local Digital Declaration

The Local Digital Declaration is a shared ambition for the future of local public services written by a collective of local authorities, sector bodies and government departments. It outlines our shared goals and commitments, and it invites all organisations working to improve local services to join in by signing up.

What is Local Digital?

Local Digital is a nation-wide movement to support the delivery of excellent digital local public services. A team based at the Ministry for Housing, Communities and Local Government will help to create the conditions for this to happen, with news, stories and resources shared via this website.

[About Local Digital](#)

What is the Declaration?

The Local Digital Declaration is a shared ambition for the future of local public services written by a collective of local authorities, sector bodies and government departments. It outlines our shared goals and commitments, and it invites local authorities and not-for-profit organisations to join in by signing up.

Local Digital Fund

We've launched the Local Digital Fund to support councils with digital projects that can be used by others, maximising efficiency savings and moving us towards common data standards and common patterns. We'll also be funding hundreds of training places to enhance digital capability in local government.
